## WHAT IS THIS PRODUCT?

### Type

This is an investment fund established as a company with variable capital and segregated liability between sub-funds, incorporated with limited liability under the laws of Ireland.

### Objectives

**Investment objective** The objective of the Fund is to achieve long-term total return (high current income and long-term capital growth).

### Investment policies

The Fund seeks to achieve its investment objective primarily by investing in equity securities of both U.S. and non-U.S. issuers, including up to 10% in the securities of emerging market companies.

The Fund is actively managed. The Investment Manager's approach in selecting investments for the Fund is primarily oriented to individual stock selection and is value driven.

Investments will be made mainly in listed securities of companies located in developed countries which may include but are not limited to Australia, Belgium, Canada, Denmark, Finland, France, Germany, Hong Kong, Ireland, Italy, Japan, the Netherlands, New Zealand, Norway, Singapore, Spain, Sweden, Switzerland, the United Kingdom and the United States. The Fund may also invest up to 10% in the securities of emerging markets companies.

The Investment Manager will place particular emphasis on factors such as economic conditions (including growth trends, inflation rates and trade balances), regulatory and currency controls, accounting standards, and political and social conditions.

The Fund will invest primarily in listed equities. In addition, the Fund may invest in equity related securities in circumstances where direct exposure to securities is uneconomic, impractical or not possible. Equity related securities include: convertible preferred shares; warrants; securities of issuers directly or indirectly in the form of Global Depository Receipts (GDRs), American Depository receipts (ADRs), International depository receipts (IDRs) and European depository receipts (EDRs).

The Fund may invest up to 10% of Net Asset Value in ETFs.

Under normal circumstances, no more than 10% of the Fund's assets will be invested in debt securities issued by governments or by their agencies, instrumentalities or political subdivisions, or by corporate entities, all of which may be high-yield, high-risk fixed income securities rated no lower than BBB by S&P and Baa by Moody's or, if unrated, considered by the Investment Manager to be of equivalent quality. In addition, for temporary defensive purposes, the Fund may invest in high-quality debt instruments.

The Fund may temporarily hold a significant portion of its assets in cash, or money market instruments. The Fund may also invest part of its assets in cash in bank accounts held with the Depository paying interest at the Depository's prevailing rates.

**Benchmark uses** This Sub-Fund is actively managed and refers to the MSCI World (Net Dividends Reinvested) Index (World Index) EUR for performance comparison. The Sub-Fund's investment strategy is not constrained by the benchmark constituents.

**Fund Currency** The base currency of the Fund is USD. This share class currency is EUR.

## WHAT HAPPENS IF WAYSTONE MANAGEMENT COMPANY (IE) LIMITED IS UNABLE TO PAY OUT?

The Management Company of the Fund has no obligation to pay out since the Fund design does not contemplate any such payment being made. You are not covered by any national compensation scheme. To protect you, the assets are held with a separate company, a depositary. Should the Fund default, the depositary would liquidate the investments and distribute the proceeds to the investors. In the worst case, however, you could lose your entire investment.
