Mondrian China Equity Onshore A Shares Fund GBP Unhedged Accumulating Class I (IE000B9RDGU0) a sub-fund of Mondrian Funds plc

This Fund is managed by Waystone Management Company (IE) Limited

OBJECTIVES AND INVESTMENT POLICY

Investment Objective

The objective of the Fund is to achieve long-term total return.

Investment Policy

The Fund seeks to achieve its investment objective primarily by investing in China A-share securities, where, in the Investment Manager's opinion, securities are undervalued at the time of purchase based on fundamental value analysis. The Fund shall invest at least 70% in China A-share securities.

The Fund may also invest in currency, debt securities, equity related securities, collective investment schemes and hold cash positions, as further outlined below.

A-share securities are securities that are listed or traded on an exchange located in China, specifically the Shanghai Stock Exchange ("SSE") and the Shenzhen Stock Exchange ("SZSE") and are denominated in Renminbi ("China A-shares"). The Fund expects to invest in China A-shares through the Shanghai-Hong Kong Stock Connect program, the Shenzhen-Hong Kong Stock Connect program and indirectly through market access products (such as participation notes).

The Fund may invest in securities issued in any currency and may hold foreign currency. Securities of issuers within a given country may be denominated in the currency of another country or in multinational currency units, including the Euro. The Investment Manager primarily uses a purchasing power parity approach to evaluate currency risk.

Under normal circumstances, no more than 10% of the Fund's assets will be invested in debt securities issued by governments or by their agencies, instrumentalities or political subdivisions, or by corporate entities, all of which may be high-yield, high-risk fixed income securities rated no lower than BBB by S&P and Baa by Moody's or, if unrated, considered by the Investment Manager to be of equivalent quality. In addition, for temporary defensive purposes, the Fund may invest in high-quality debt instruments.

Furthermore, the Fund may invest in equity related securities in circumstances where direct exposure to securities is uneconomic, impractical or not possible. Equity related securities include: convertible preferred shares (being preferred shares that include an option to convert the preferred shares into a fixed number of common shares, usually any time after a predetermined date); warrants (being a derivative security that gives the holder the right to purchase securities (usually equity) from the issuer at a specific price within a certain time frame); securities of issuers directly or indirectly in the form of Global Depository Receipts (GDRs), American Depository Receipts (ADRs), International depository receipts (IDRs) and European depository receipts (EDRs).

The Fund may invest up to 10% of Net Asset Value in the units/shares of eligible collective investment schemes where such investments satisfy the requirements of the Central Bank (including ETFs).

Benchmark

This Sub-Fund is actively managed and refers to the MSCI China A Onshore Index GBP for performance comparison. The Sub-Fund's investment strategy is not constrained by the benchmark constituents.

Subscription and Redemption

Shares of the Fund may be redeemed on demand, with dealing normally on a daily basis.

Income

This Share Class does not pay dividends. Any income which may result from the Fund's investments, will be reinvested into the Fund.

Fund Currency

The base currency of the Fund is USD. This share class currency is GBP.

Investment Horizon

Investment in the Fund may be suitable for investors with a medium to long term investment horizon.

RISK AND REWARD PROFILE

Why is this Sub-Fund in this category?

The Fund is in category 6 because of the nature of its investments which include the risks listed below. These risks may impact the value of the Fund's investments or expose the Fund to losses.

Risk Disclaimer

The risk and reward indicator is based on historical data and may not be a reliable indication for the future. The risk and reward category shown is not guaranteed to remain unchanged and may change over time. The lowest category does not mean that a share class is risk free and your initial investment is not guaranteed.

The value of your investment in the Fund may be affected by the following material risks not fully captured in the methodology:

- As the Fund will invest primarily in equities and equity-related securities, it may be more volatile than a fund that invests in fixed income securities but may also offer greater potential for growth.
- The Fund may invest in emerging markets. The securities markets of emerging countries are substantially smaller, less developed, less liquid and more volatile than the securities markets of more developed countries. In particular, the securities markets of emerging countries have substantially less trading volumes, resulting in a lack of liquidity and high price volatility.
- The Fund invests a substantial amount of its assets in securities denominated in currencies other than the Base Currency and in other financial instruments, the price of which is determined with reference to currencies other than the Base Currency. However, the Fund's securities and other assets are valued in the Base Currency. To the extent unhedged, the value of the Fund's assets will fluctuate with U.S. Dollar exchange rates as well as with price changes of the Fund's investments in the various local markets and currencies. Thus, a change in the value of the U.S. Dollar compared to the other currencies in which the Fund makes its investments will affect the prices of the Fund's securities in their local markets.

- Where the Fund seeks exposure to stocks issued by companies listed on China stock exchanges via Stock Connect, it may be subject to additional risk factors, including quota limitations, suspension risk, differences in trading day, restrictions on selling imposed by front-end monitoring, clearing and settlement risks, operational risk, nominee arrangements in holding China A-Shares, investor compensation, trading costs, taxation and regulatory risk.

For a complete overview of all risks attached to this Fund, refer to the section entitled "Risk Factors" in the Fund's Supplement and the Mondrian Funds plc Prospectus.
