Mondrian Global Equity Fund USD Unhedged Accumulation Class I (IE00BSVYGT76)

a sub-fund of Mondrian Funds plc

This Fund is managed by Waystone Management Company (IE) Limited

OBJECTIVES AND INVESTMENT POLICY

Investment Objective

The objective of the Fund is to achieve long-term total return (high current income and long-term capital growth).

Investment Policy

The Fund seeks to achieve its investment objective primarily by investing in equity securities of both U.S. and non-U.S. issuers, including up to 10% in the securities of emerging market companies.

The Fund is actively managed. The Investment Manager's approach in selecting investments for the Fund is primarily oriented to individual stock selection and is value driven.

Investments will be made mainly in listed securities of companies located in developed countries which may include but are not limited to Australia, Belgium, Canada, Denmark, Finland, France, Germany, Hong Kong, Ireland, Italy, Japan, the Netherlands, New Zealand, Norway, Singapore, Spain, Sweden, Switzerland, the United Kingdom and the United States. The Fund may also invest up to 10% in the securities of emerging markets companies.

The Investment Manager will place particular emphasis on factors such as economic conditions (including growth trends, inflation rates and trade balances), regulatory and currency controls, accounting standards, and political and social conditions.

The Fund will invest primarily in listed equities. In addition, the Fund may invest in equity related securities in circumstances where direct exposure to securities is uneconomic, impractical or not possible. Equity related securities include: convertible preferred shares; warrants; securities of issuers directly or indirectly in the form of Global Depository Receipts (GDRs), American Depository receipts (ADRs), International depository receipts (IDRs) and European depository receipts (EDRs).

The Fund may invest up to 10% of Net Asset Value in ETFs.

Under normal circumstances, no more than 10% of the Fund's assets will be invested in debt securities issued by governments or by their agencies, instrumentalities or political subdivisions, or by corporate entities, all of which may be high-yield, high-risk fixed income securities rated no lower than BBB by S&P and Baa by Moody's or, if unrated, considered by the Investment Manager to be of equivalent quality. In addition, for temporary defensive purposes, the Fund may invest in high-quality debt instruments.

The Fund may temporarily hold a significant portion of its assets in cash, or money market instruments. The Fund may also invest part of its assets in cash in bank accounts held with the Depositary paying interest at the Depositary's prevailing rates.

Benchmark

This Sub-Fund is actively managed and refers to the MSCI World (Net Dividends Reinvested) Index (World Index) USD Unhedged for performance comparison. The Sub-Fund's investment strategy is not constrained by the benchmark constituents.

The base currency of the Fund is USD. This share class currency is USD.

Investment Horizon

Investment in the Fund may be suitable for investors with a medium to long term investment horizon.

RISK AND REWARD PROFILE

Why is this Sub-Fund in this category?

The Fund is in category 5 because of the nature of its investments which include the risks listed below. These risks may impact the value of the Fund's investments or expose the Fund to losses.

Risk Disclaimer

The risk and reward indicator is based on historical data and may not be a reliable indication for the future. The risk and reward category shown is not guaranteed to remain unchanged and may change over time. The lowest category does not mean that a share class is risk free and your initial investment is not guaranteed.

The value of your investment in the Fund may be affected by the following material risks not fully captured in the methodology:

- Emerging markets investments are more volatile and present higher risk than investments in more established markets.
- Such markets carry additional risks such as political instability, weaker auditing and financial reporting standards and less government supervision and regulation.
- The Fund's investments may be in currencies other than US dollars. The impact of this is that as the value of a currency rises or falls it can have a positive or negative impact on the value of the Fund's investments.
- The Fund can invest in financial derivative instruments. These instruments have additional risks such as legal risk or liquidity risk (the inability to sell the contract due to lack of buyers in the market). These risks can have adverse impacts on the overall value of the Fund.

For a complete overview of all risks attached to this Fund, refer to the section entitled "Risk Factors" in the Fund's Supplement and the Mondrian Funds plc Prospectus.
