

Mondrian Global Fixed Income Fund (Euro Hedged Class)

Quarter 3, 2024

Why Mondrian Fixed Income?

Strong track records - we believe this is repeatable for the following reasons:

- Financially robust - Ownership directly aligns with client's interests
- Well-resourced team - Stable, well resourced team with no reliance on 'star managers'
- Nimble - manageable AuM and focused team means we can continue to rapidly exploit opportunities
- Competitive management fees

Investment Objective

- The Mondrian Global Fixed Income Fund (the Fund) aims to generate current income consistent with the preservation of principal
- The Fund intends to invest primarily in global portfolio of fixed and/or floating rate debt securities denominated in any currency and issued by governmental and supranational issuers located throughout the world that may provide the potential for capital appreciation
- The debt securities the Fund invests in will generally be rated BBB- or better by Standard & Poor's or Baa3 or better by Moody's Investors Service or if unrated, be deemed to be of comparable quality by the Investment Manager
- The Fund may invest in a broad range of debt securities, including government, municipal, sovereign, and supranational bonds and other debt securities, instruments and obligations issued by governments, their agencies, instrumentalities or political subdivisions and supranational entities
- Types of bonds the Fund may invest in but is not limited to are zero coupon bonds and inflation-linked bonds

Important Notes and Disclosures

This is a marketing communication. Please refer to the prospectus of the UCITS and to the KIID/KID before making any final investment decisions.

Calculations for yield to maturity, modified duration, average maturity and average credit rating are based on generally accepted industry standards. All characteristics are based on a representative account and derived by first calculating the characteristics for each security, and then calculating the weighted-average of these values. The details of exact calculations can be provided upon request. All characteristic data provided is produced using Mondrian's accounting system data.

Past performance is not indicative of future results. An investment in the Fund involves the risk of loss. The investment return and value of interests in the Fund will fluctuate. When a withdrawal is made, the interests may be worth more or less than when originally purchased. There can be no assurance that the investment objectives of the Fund will be achieved.

The Fund is managed in accordance with the investment objective and guidelines and other terms and conditions described in the Prospectus and Supplement, as each may be amended or modified from time to time in accordance with their terms. The Fund is not managed in accordance with the individual guidelines of any one investor.

The Total Assets of the Fund and the Fund Return are calculated using the official Net Asset Value data of the Fund. All other information has been calculated using Mondrian's accounting system data, which may differ from official Net Asset Value data of the Fund, for example because of timing of the accounting of Administrative Expenses and pricing for securities. All returns in this Fund Overview are in EUR.

All performance provided in this Fund Overview is net of Transaction Expenses but gross of Subscription Charges and Redemption Charges (each as described in the Prospectus and Supplement). GAV performance is gross of Management Fees and Administrative Expenses, whilst NAV performance is net of Management Fees and Administrative Expenses. Subscription Charges and Redemption Charges are automatically deducted from subscription payments and redemption proceeds. Investor returns will be reduced by Subscription Charges and Redemption Charges paid.

The FTSE World Government Bond Index is a market weighted index of world government fixed income securities in which the total market value of the constituent countries is at least \$25 billion. All references to "benchmark" assume the reinvestment of dividends after the deduction of withholding tax and approximate the minimum possible re-investment, unless the benchmark is specifically described as a "Gross" benchmark.

Views expressed were current as of the date indicated, are subject to change, and may not reflect current views. Views should not be considered a recommendation to buy, hold or sell any security and should not be relied on as research or investment advice. This Fund Overview may include forward-looking statements. All statements other than statements of historical facts are forward-looking statements (including words such as "believe," "estimate," "anticipate," "may," "will," "should," "expect"). Although we believe that the expectations reflected in such forward-looking statements are reasonable, we can give no assurance that such expectations will prove to be correct. Various factors could cause actual results or performance to differ materially from those reflected in such forward-looking statements.

It should not be assumed that investments made in the future will be profitable or will equal the performance of any security referenced in this piece. Examples of securities bought or sold may not represent a complete list of all transactions in the period. Holdings are subject to change.
